Our solar pump kits are practical and cost effective solutions for retrofitting your fountain or landscape ponds.

Can be used for livestock watering, irrigation, ponds, remote homes and cabins. Overheating protection may cause your pump to stop working for tens of minutes and then restart.

Simply connect our solar water pump to a 12V battery photovoltaic pack to use. With a wide voltage range of DC 12V-14.8V, you pick the solar panels and power system that suit you better.

Maximize your water pumping efficiency with our Peripheral Solar Water Pump- Direct DC - SYDC-QB 12V/24V. Experience great flow and power now!

Simply connect our solar water pump to a 12V battery photovoltaic pack to use. With a wide voltage range of DC 12V-14.8V, you pick the solar panels and power ...

The S5 Solar Pump is designed with many protection features. It has dry-running protection, over voltage and overload protection.

High-efficiency solar power: The solar water pump kit features a 50W DC 12V polysilicon solar panel, providing high-efficiency solar power for the water pump. It ensures reliable and ...

12V Submersible Water Pump - German Made (2.5GPM / 18ft.) | Portable RV Water Pump - Works with Electric Switch in 12V Faucets | 12 Volt Small Water Transfer Pump for Camper, ...
