What batteries do I need for my solar system?

We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

What are bigbattery off-grid lithium batteries made of?

BigBattery off-grid lithium battery banks are made from LiFePO4 cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery. Our solar batteries are the lowest-priced energy source in the long run and are cheaper than lead-acid batteries.

Does bigbattery have a solar battery?

With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application.

Does bigbattery use lithium ion batteries?

BigBattery's off-grid lithium battery systems utilize only top-tier LiFePO4 batteries for maximum energy efficiency. Our off-grid lineup includes the most affordable prices per kWh in energy storage solutions. Lithium-ion batteries can also store about 50% more energy than lead-acid batteries! Power your off-grid dream with BigBattery today!

Q: Do you have the documents required for battery shipments? A: Yes, we have MSDS, UN38.3, etc. and other special files needed for shipments to some regions can also be secured.
