---

New funding follows the successful demonstration of key technologies and the design of a 2MW powertrain system in Phase 1. This represents a key step toward a full-scale ...

Designed for medium wind speeds, the 2.2-2.4MW turbine provides a 51% increase in swept area with the 107m rotor, and an extra 350-450 kW output at rated wind speed compared to the ...

the 2 MW platform? Our 2 MW platform provides industry-leading reliability, serviceability and availability. Durable and dependable, the platform is built on technology that has been proven ...

Introduced in 2000 and incrementally improved over the years, the 2 MW platform is well suited for optimising production at park level. Turbines installed. Installed capacity. Each 2 MW ...

Spirit 2MW is highly reliability and fuel-flexible with low lifecycle costs. The "Plug-n-Play" package feature enables easy transportation and reduces installation time and costs.

Gamesa is a leading company in the design, manufacturing, installation, operation and maintenance of wind turbines. In 2004, Gamesa was ranked second worldwide in a ranking of ...

2.0-2.4 MW Platform GE's 2.2-2.4MW, 107m rotor wind turbine is an advanced evolution of the 1.x series, providing an up to 35% increase in Annual Energy Production (AEP) over its ...

Based on the modular design concept of platform, WT2000 series doubly-fed wind turbines provides customized scheme design of 2 ~ 2.2MW power level, 80 ~ 140m tower and 103 ~ ...
