About this item Wide Applicability: 1.5W 5V micro solar panels are mostly used for DIY solar panels. Diverse Features: Monocrystalline silicon solar panels, PET substrate, no ...

This is a high-performance, lightweight, portable monocrystalline silicon ...

Shop our 5V 1.5W solar panels for outdoor lighting and camping. Customizable and durable, they offer reliable power in any environment. Perfect for DIY projects.

Our mid-range small solar panels (from 1w up to 5w) are available from 4.5v up to 15v - making them perfect for keeping your 3v, 6v and 12v battery systems charged using the power of the sun.

5W Solar Panel for Security Camera, USB Solar Panel for DC 5V Outdoor Rechargeable Battery Camera, Solar Panels with Micro USB and USB-C Port, Adjustable Security Mount, IP65 ...

This is a high-performance, lightweight, portable monocrystalline silicon solar panel in a PET package, with an integrated voltage regulator output of 5V, with working indicators, USB type ...

This 1.5W 5V solar panel is built with the latest most efficient monocrystalline solar cell, peak power 1.6 watts. It is laminated by tempered glass, which is durable and robust. This 5 volt ...

This mini solar module has a high conversion rate and good efficiency in the light output. The solar panel can be used for many applications: Usually 5-V solar panels are used to charge ...
