What type of energy storage projects are recent contracts for?

Recent contracts are predominantly for much larger transmission-connected energy storage projects. Earlier energy storage contracts were significantly more expensive across all grid domains, and they generally reflect the cost reductions seen in the global storage industry.

Why is a high solar PV penetration portfolio important?

In a high solar PV penetration context, a storage portfolio with this operating pattern indicates grid optimization, renewables integration, and GHG emissions reduction towards the state's clean energy goals.

Do distribution-connected energy storage projects need an interconnection agreement?

Yes, distribution-connected energy storage projects must have an interconnection agreement with the utility. These projects, operating like a generator, must interconnect under the Wholesale Distribution Access Tariff (WDAT), which is regulated by the Federal Energy Regulatory Commission (FERC).

When will the energy storage projects be installed?

The energy storage projects will be installed by the end of 2024. In 2013, the CPUC issued Decision 13-10-040 and directed California's three large investor-owned utilities to procure 1,325 megawatts of energy storage by 2020.

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be directed towards tools, resources, and ...

There are three key types of procurement contracts--power purchase agreements (PPAs) or energy storage services agreements; engineering, procurement, and construction ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), ...

Learn about the essential elements of a solar RFP; receive introductory guidance on how to evaluate any proposals received; and be ...

Let FEMP's steps to evaluating electricity procurement guide the way. Find utility programs that meet statutory requirements or offer financial ...
