Are portable power stations safe?
Portable power stations are silent and don't produce additional emissions,so you can use them safelyindoors and while you're sleeping. And since they have no motor,you don't need to keep gas handy or perform the oil changes and other minor maintenance that a combustion engine requires.

Are portable power stations better than gas-powered generators?
In an emergency,these power stations offer some major advantagesover gas-powered portable generators,despite being less powerful. Portable power stations are silent and don't produce additional emissions,so you can use them safely indoors and while you're sleeping.

Which portable power station should I buy?
If you want a portable power station that's lighter than our upgrade pick, often costs less, and adds a small light, and you don't mind that it has less power, a single handle, and fewer outlets and charging ports: Get the Jackery Explorer 880. It weighs 21.8 pounds, and has an ergonomic handle on top and a small light built into the side.
