Who is Battery Works Australia?

Battery Works Australia specializes in battery storage solutions, having transitioned from a battery re-packing business to becoming a leading distributor of battery systems, including Victron Energy products. Their expertise and national distribution capability ensure enhanced system design and technical support for various battery applications.

Why should you choose scsau for battery storage containers in Australia?

When it comes to battery storage containers in Australia, SCSAU stands out with cutting-edge designs, expert support, and an unwavering focus on quality. We proudly deliver custom-built energy solutions that offer speed, affordability, compliance, and adaptability--perfect for modern Australian businesses.

What is a battery storage container?

At SCSAU, we design modular, mobile, and secure battery storage containers that are both cost-effective and engineered for today's demanding energy needs. These containers include advanced battery management systems, making them ideal for storing Lithium-ion and other battery types--even in harsh environments.

Does Battery Works still deliver training?

Despite challenging travel restrictions due to continuing pandemic border closures, Battery Works continues to deliver training at existing facilities and still manages two trips to Perth, Western Australia in the first half of the year. Training days for Victron Energy and Pylontech are both sold out.
