Brunei has set a renewable energy target of at least a 30% share of total installed power capacity by 2035, along with reducing greenhouse gas emissions by 20% by 2030.

The government targets to lower its GHG emissions by 20% from business-as-usual (BAU) levels by 2030, as it seeks to achieve a 30% renewable energy mix. As of the end ...

Regional clean energy infrastructure developer Solarvest Holdings Bhd, via its wholly owned subsidiary Atlantic Blue Sdn Bhd, has clinched Brunei Darussalam's largest ...

This milestone represents Brunei Darussalam's largest government-led solar project to date and the first large-scale solar initiative under a Public-Private Partnership (PPP).

The project, which is to be located at Belimbing near Bandar Seri Begawan, will be a crucial step in the country's renewable energy initiative. It will be a mega government-led ...

In a move poised to reshape Brunei's energy landscape, a tri-national joint venture led by Malaysia's Solarvest Holdings Berhad has ...
