How has global solar PV manufacturing capacity changed over the last decade?

Global solar PV manufacturing capacity has increasingly moved from Europe, Japan and the United States to China over the last decade. China has invested over USD 50 billion in new PV supply capacity - ten times more than Europe - and created more than 300 000 manufacturing jobs across the solar PV value chain since 2011.

What is the global solar PV supply chain worth?

In that last year, the global solar PV chain reached an industrial business value of some 104.7 billion U.S. dollars, with China dominating the market, and followed by the United States and Malaysia. Discover all statistics and data on Global solar PV supply chain now on [statista.com](https://www.statista.com)!

How many dumping and import taxes are imposed on solar PV?

Since 2011, the number of antidumping, countervailing and import duties levied against parts of the solar PV supply chain has increased from just 1 import tax to 16 duties and import taxes, with 8 additional policies under consideration. Altogether, these measures cover 15% of global demand outside of China. IEA. Licence: CC BY 4.0

What are the quarterly solar industry updates?

The quarterly solar industry updates often cover: Updates on related government programs and policies. An Updated Life Cycle Assessment of Utility-Scale Solar Photovoltaic Systems Installed in the United States, NLR Technical Report (2024) Energy and Carbon Payback Times for Modern U.S. Utility Photovoltaic Systems, NLR Fact Sheet (2024)

Botswana's 3,000+ annual sunshine hours and Basseterre's tropical climate make photovoltaic (PV) systems a no-brainer. But here's the kicker - without proper energy storage, up to 40% of ...

Basseterre is the main commercial and industrial centre of St. Kitts. It is also the country's main port of entry for both sea and air travel, as well as the road and rail transport hub.

To meet this growing demand, the solar manufacturing industry has experienced remarkable growth in the last few years, with ...

Basseterre Valley solar farm (Parque Solar Basseterre Valley) is a solar photovoltaic (PV) farm under construction in Basseterre, Saint Kitts and Nevis.

Basseterre exports a large proportion of solar modules
