---

The Chilean regulatory landscape has evolved to include battery storage with last year's publication of Decree 70, which defined the rules for recognizing the capacity provided ...

The project features PowerTitan liquid cooling and control systems from Chinese battery manufacturer Sungrow. Developer Atlas Renewable Energy says its project can ...

Chile, China and Australia drove global BESS deployments in April, a month which saw over 9GWh of grid-scale capacity enter operations.

Project Arena, a 220 MW / 1,100 MWh battery energy storage system (BESS), will be one of the first large-scale standalone BESS projects in Chile to reach commercial operations.

With transmission lines at overcapacity and permitting ...

The project features PowerTitan liquid cooling and control systems from Chinese battery manufacturer Sungrow. Developer Atlas ...

These projects build on the success of previous joint ventures, including the 425 MWh BESS deployed at co-located sites in ...

These projects build on the success of previous joint ventures, including the 425 MWh BESS deployed at co-located sites in Chile. This marks the second collaboration ...
