This guide aims to explore the various types of folding shipping containers, their applications, benefits, and technical specifications, providing a comprehensive understanding ...

Structure: Built mostly from stacked shipping containers. If you're comparing it globally, it's roughly the size of 400+ football fields and larger than many Western-style ...

Most of the market is built of double-stacked shipping containers. Typically, the lower container is used as a shop, while the upper one is used for additional storage.

One day I decided to get a taxi to the largest market in Kyrgyzstan, and one made entirely from shipping containers - Dordoi Bazaar. Dordoi Bazaar is a mixture of everything, and not only was I...

In disaster-stricken regions like Nepal or Bangladesh, folding containers are being deployed as temporary shelters, offering durable, weather-resistant housing until permanent ...

The kilometer long Dordoy Bazaar is considered one of the Asia's greatest public market places and is built out of around 7,000 ...

One of Asia's largest shopping centers, the Dordoy Bazaar consists of around 7,000 shipping containers, which makes it a monument to repurposing.

In a remarkable example of adaptive reuse, over 7,000 shipping containers have been stacked together to create the thriving marketplace in Bishkek, Kyrgyzstan.
