LACIF contributes to Bolivia's first large-scale photovoltaic project, which is led by AFD. It entails the construction of a 50 MW photovoltaic (PV) power plant in the Altiplano region, in the ...

At the same time, Bolivia plans to introduce combined cycle technology to optimize thermal power generation, improve power generation efficiency and reduce greenhouse gas emissions.

By integrating UKSOL modules, Bolpegas ensures the delivery of world-class solar solutions precisely tailored to Bolivia's unique conditions and energy demands.

To allow for 300,000 photovoltaic solar panels in the western Bolivian town of Ancotanga, local inhabitants gave up land in exchange for promises of jobs and healthcare -- ...

With this operation, more than 141,000 people will have new or improved access to electric power for domestic and productive use through grid extension, construction of mini ...

The project will be executed by Empresa Nacional de Electricidad (ENDE). The Chichas Solar Power Plant Project represents a ...

Tupiza, Potosí; - El Banco de Desarrollo de América Latina y el Caribe (CAF) aprobó un financiamiento de 110 millones de dólares para la construcción de la Planta Solar ...

Harnessing power from sources like solar, wind, hydro, and biomass offers a sustainable alternative to fossil fuels in Bolivia. For instance, solar farms in the high-altitude ...
