The Boston Solar Team has delivered customized solar energy solutions to over 6,000 households in New England for the past 13 years. Recently, we have expanded into the ...

DOER has created a guideline to provide guidance on metering requirements for SMART qualified Solar Tariff Generation Units as well as paired Energy Shared Storage systems.

DOER created the Solar Massachusetts Renewable Target (SMART) Program to create a long-term sustainable solar incentive program that promotes cost-effective solar development in the ...

After early success, the SMART solar program doubled in size from 1,600 to 3,200 MW of capacity, thereby extending this incentive to many more homeowners. In this article, ...

Venture Solar is a solar company providing high-efficiency, US-made solar panel installation for homes across the Northeast. Backed by a 25-year warranty.

As Massachusetts' number one Massachusetts based solar installer, with years of experience, also installing commercial systems, ...

Brief Overview of The Massachusetts Smart Program
How to Calculate Your Smart Program Incentive
How to Apply For The Smart Solar Incentive
Smart Program Frequently Asked Questions
Even if the incentive isn't huge, there's no harm in participating in SMART -- just think of it as a nice cherry on top of the bigger benefits of going solar in Massachusetts. Solar systems that are less than 25 kW and interconnected to one of the three investor-owned utilities are invited to complete the SMART Statement of Qualification Application...
