Three years ago, SCU deployed the country's first 40ft containerized energy storage system at a solar farm in Bulgaria, setting a precedent for large-scale industrial and ...

S. utility scale solar sector. The Mobil-Grid & #174; is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with ...

Greenwatt is proud to announce the successful delivery of a complete 1 MW grid-connected photovoltaic (PV) system to our valued client in Bulgaria.

This is particularly important in Bulgaria, where due to the grid being developed for large and centralized power stations, areas suitable for renewable generators may not have sufficient ...

PV, and hydro, to a dedicated network application. This application facilitated the collection of data from the connected RES with minimal latency (milliseconds) and 99.9% reliability and ...

PPC Group will expand its renewable energy portfolio in Bulgaria with the addition of a new 88MW solar park. The facility, under construction in central Bulgaria, is being ...

The project, located near Silistra in northeast Bulgaria, includes the development, construction, and operation of the solar PV plant, along with two overhead transmission lines ...

Spanning nearly 38 hectares, the site hosts 103,116 PV modules and is set to play a key role in advancing Bulgaria's ...
