What is cabeolica wind farm?

The Cabeolica wind farm, set across four islands of the Cape Verde archipelago, has led the way in wind power generation in Africa. The project company, Cabeolica S.A., was established by the founding partners in 2009 and began generating power from September 2011.

What is cabeolica wind power?

The project company, Cabeolica S.A., was established by the founding partners in 2009 and began generating power from September 2011. Lying across the trade winds belt, the archipelago has consistent wind speeds of up to 10m/s creating one of the best locations in the world for wind power generation.

Why is Cape Verde a good place to live?

The population of Cape Verde benefit from an upgraded and extended electricity grid. Reduced pressure on public funds to solely bear the cost of expanding energy generation capacity, freeing up funds for other public uses. Growth stimulated in the wider Cape Verdean economy and the country's critical power deficit addressed.

Cape Verde has inaugurated a major expansion of its flagship Cabeolica Wind Farm, adding new wind capacity and one of Africa's most advanced battery energy storage ...

Cabeolica's new expansion project comprises the installation of 3 wind turbines of 4.5 MW and batteries energy storage systems (BESS) with operation set to commence by the end of 2025:

Announced earlier this week (8 December), AFC and Cabeolica have officially opened the Cabeolica Wind Farm and Battery Energy Storage System (BESS) project, which ...

In 2024, Cabeolica was responsible for approximately 14% of the electricity consumed in the country, according to the company's financial report. In addition to the ...

This new project will finance the expansion of promoter's existing windfarm in Santiago island and the installation of at least two Battery Energy Storage Systems (BESS) in ...

The Cabeolica wind farm, set across four islands of the Cape Verde archipelago, has led the way in wind power generation in Africa. The project company, Cabeolica S.A., was established by ...
