What is a container house?

CW Dwellings - Your container home from design to delivery. Why container houses? Why build houses with containers? Containers are an excellent building material for houses, as they are designed to withstand heavy internal and external loads under the most adverse conditions that a house would ever have to endure.

How can containers be used in a home?

For example, containers can be stacked on top of each other to create a two-story home or arranged side by side to create a wider living space. Multiple containers can also be used to create separate living areas or to add additional rooms such as a home office or a guest room.
