She is concentrating her attention on her studies. [=she is giving her attention to her studies] We need to concentrate our efforts on finding ways to work more efficiently.

CONCENTRATING meaning: 1. present participle of concentrate 2. to direct your attention or your efforts towards a.... Learn more.

OverviewCurrent technologyComparison between CSP and other electricity sourcesHistoryCSP with thermal energy storageDeployment around the worldCostEfficiencyCSP is used to produce electricity (sometimes called solar thermoelectricity, usually generated through steam). Concentrated solar technology systems use mirrors or lenses with tracking systems to focus a large area of sunlight onto a small area. The concentrated light is then used as heat or as a heat source for a conventional power plant (solar thermoelectricity). The solar concentrators use...

Concentrated solar power uses special reflectors to focus the sun's energy onto receivers that capture and store heat in gas, liquid, or solid particles. The stored heat can ...

Concentrated solar power (CSP), also called concentrating solar power or concentrated solar thermal, involves systems that collect solar heat for multiple purposes like cooking, ...
