Can Pilkington solar-ETM be used in single glazing applications?

Pilkington Solar-E(TM) products can be used in single glazing applications provided that the coating faces the interior of the building. They provide attractive solutions to various applications where good light transmittance with enhanced solar control performance is required.

What colours do Pilkington solar-ETM products come in?

The products are available in a range of colours - Clear, EverGreen. Pilkington Solar-E(TM) products can be used in single glazing applications provided that the coating faces the interior of the building.

What are the benefits of energy glass solar?

The benefit of large-scale installation of Energy Glass Solar(TM) products transforming mid and high rise buildings and greenhouse into vertical solar farms is game changing, as well as usage in residential homes & both commercial and non-commercial vehicles. Automobiles, Boats... By Direct Email, Or By Phone.

Does energy glass solar degrade from IR?

This proprietary Inorganic Nano Technology and Solar Collector does not degrade from IR like typical solar cells do. DC electricity produced from Energy Glass Solar(TM) can be inverted and returned to the grid, charge batteries, be wired direct to DC electronics, and offers a value-added solution for power independence from the main electrical grid!

Since 1979, Solar Glass has been a family-owned and operated company, proudly serving the New York area. Our commitment to top-tier craftsmanship extends from residential to ...

Overview Pilkington Solar-E(TM) is a range of good solar control performance on-line coated glasses offering low solar heat coefficient gain, low reflectivity, reduced glare and low ...

Thanks to its balanced combination of visible light transmittance (VLT), solar control and clarity, Solarban® 70 glass can help you strike the right ...

Energy Glass Solar(TM) uses inorganic nano particles that are co-infused in a polycarbonate interlayer, which is then laminated between two lites of 1/4? inch glass.
