Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and...

Energy-as-a-Service, long-duration storage, and decentralized power models are gaining ground globally and are well represented within ...

To spotlight real-world impact, here are six standout cases in Israel's C& I energy storage landscape, showcasing diverse applications from utility-scale hybrids to BTM solutions:

To help Israel's industrial and commercial energy transition, GSL Energy and Deye have jointly created a highly efficient and flexible energy storage demonstration project.

Energy-as-a-Service, long-duration storage, and decentralized power models are gaining ground globally and are well represented within Israel's innovation landscape.

Today, our focus is on unfolding the narrative of energy storage development in Israel--an emerging market with a tale of its own. Change is inevitable, and the energy ...
