An energy crisis in Venezuela has resulted in blackouts for a decade in most of the country, and 15 years in the western state of Zulia. Several Venezuelan states experience blackouts frequently, and outages occur daily in the western part of the country. Infobae stated in August 2024 that "unofficial estimates" are that Venezuela has about 200 daily power outages, with frequent complaints to Corpoelec, the state-run power company.

Venezuela's energy sector has lost much of its capacity to collect and use natural gas, preferring instead to burn it off. Venezuela's government regulates natural gas prices, and ...

Caracas Companies: Inversora B-14 C.A., M-I Drilling Fluids De Venezuela C.A., Proycca, S.A., Ypergas S.A., Equigas C.A., Lubricantes Cark Oil C.A.

Energy Overview of Venezuela CAUTION: The summaries provided below are based on the data in GEO which may be incomplete.

The US targeted two military bases, a naval port and an airport after combing through various videos of explosions and smoke plumes.

Venezuela has the world's largest estimated oil reserves but its crude output remains at a fraction of capacity due to decades of mismanagement, lack of investment and sanctions, ...
