Our solution is an all-in-one package: Battery packs, charge controller, BMS, EMS, and PcS, all integrated into a single unit with a highly efficient three-level topology to optimize system ...

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions. Backup power | Supply power to the ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions. Backup power | Supply power to the load when the power grid is out of power, or ...

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, ...

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

Ideal for retail stores, restaurants, small factories, telecom base stations, and temporary event sites, these cabinets combine rugged protection (IP54), integrated inverters, and scalable rack ...

String PCS is adopted to improve the battery life cycle and support off-grid/quad-connected/off-grid hybrid modes, etc. Instant switching and black starting. Customization possibility. Read more ...
