-----

We're thrilled to announce the completion of a groundbreaking hybrid solar-storage-diesel project in Eritrea's sun-rich coastal region! ? Designed for a local factory with no ...

Building on this momentum, Eritrea is now launching three new solar mini-grid projects under the DtP framework, targeting the ...

Located in Eritrea's sun-drenched coastal region, this innovative 250kW/2MWh photovoltaic-storage hybrid system delivers stable, sustainable power to a factory completely disconnected ...

Located in the coastal sunshine-rich region of Eritrea, this project solves the problem of off-grid power supply for a local factory. As there is no utility power supply at the project location, the ...

In a landmark move toward sustainable energy, Eritrea is set to welcome its first solar photovoltaic energy storage plant, marking a ...

Building on this momentum, Eritrea is now launching three new solar mini-grid projects under the DtP framework, targeting the regions of Tesseney, Kerkebet, and Barentu.

? On the coast of Eritrea, a new breakthrough in off-grid power supply! ? 250kW/2MWh hybrid system of photovoltaic, energy storage and diesel generator, integrating three functions in one...

Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy ...
