In this section we provide information for local governments and landowners on the decommissioning of large-scale solar panel systems through the topics of decommissioning ...

In the race to meet renewable energy goals as demand rises across the United States, farm and ranch land is increasingly becoming a target for solar development.

The Solar Energy Technologies Office (SETO) is researching the opportunities and trade-offs of agrivoltaics. This guide helps answer some questions that farmers may have about going solar ...

While the analysis in this paper shows that the threat is overstated, the concern has led some state and local policymakers to attempt to implement restrictions on the use of prime farmland, ...

Discover how solar containers are revolutionizing rural electrification. Learn how to plan, size, deploy, and operate off-grid solar units effectively--real examples and expert ...

View the project announcements below for full details regarding awardees for the New ERA and PACE programs, as well as more details on Rural Development's public portal.

As efforts to conserve farmland intersects with the growth in renewable energy, agrivoltaics emerges as a solution to integrate agriculture and solar photovoltaic (PV) ...

As efforts to conserve farmland intersects with the growth in renewable energy, agrivoltaics emerges as a solution to integrate ...
