---

The BESS project is located less than 100 km south of the Arctic Circle and is made up of 26 Sungrow PowerTitan battery containers. With a power output of 30MW and a ...

Sungrow is set to supply its cutting-edge PowerTitan 2.0 liquid-cooled energy storage system for Renewable Power Capital's 50MW/100MWh Kalanti BESS project in Finland.

Sungrow is set to supply its cutting-edge PowerTitan 2.0 liquid-cooled energy storage system for Renewable Power Capital's ...

The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland. Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate ...

Renewable energy projects developed by Korkia and Semecon Oy in the Sievi region, Finland, are progressing, as a legally valid building permit has been granted for a ...

Global solar and energy storage leader Sungrow has announced the successful commissioning of a 60MWh Battery Energy Storage System (BESS) project in Simo, Finland, ...

As renewable energy sources like wind and solar are increasingly integrated, this plant, which has a 30MW power output and a ...

With an installed capacity of 30 MW / 36 MWh, the project marks a major milestone and will play a vital role in strengthening Finland's evolving renewable energy infrastructure. Designed to ...
