The planned development of a 100-megawatt energy storage system at the former Charles P. Poletti Power Plant in Astoria, Queens, was selected by Con Edison in response to its 2019 ...

Elevate Renewables is developing a utility-scale energy storage facility at the Essex Generating Station located 5 miles from New York City in Newark, New Jersey.

Mortenson, the EPC contractor, is partnering with Terra-Gen, LLC, bringing the world's largest solar and battery storage project to life. The project consists of 864 megawatts of solar and ...

Deploying an energy storage system is complex--but it doesn't have to be complicated for you. At Peak Power, we handle every detail to ensure a smooth, safe, and efficient construction process.

Think of a top-tier energy storage EPC general contractor as the James Bond of construction - licensed to handle engineering, procurement, and construction with a license to ...

BEI Construction has the engineering, electrical and implementation expertise required on energy storage construction projects (BESS) and can deliver battery-based energy storage as part of ...

We help clients determine the optimal site, size, materials, construction methods and design features to meet their needs for power plants and renewable energy facilities, and we ...

The Blenheim-Gilboa Pumped Storage Power Station is a pumped-storage hydroelectricity plant in the Catskill Mountains of New York State. The plant is part of the New York Power Authority, and can generate over 1,100 megawatts (1,500,000 hp) of electricity. It is used daily to cover peak demand. There are two reservoirs that are involved in the project, both with a capacity of 5 billion US g...
