Who are switchgear manufacturers?

Established in 1985, we work across a wide variety of sectors and proudly support some of the world's largest blue-chip companies. We're UK Switchgear Manufacturers with dedicated in-house design and manufacturing teams, specialising in bespoke Low and Medium voltage products.

Who is power engineering & switchgear?

Recognised as a leading provider of electrical switchgear and power engineering solutions for the marine, oil & gas, healthcare, education, transport, defence and energy sectors, we combine technical expertise with cutting-edge technology to provide high quality solutions for critical power applications.

How does a generator switch work?

You can also use this system as a manual transfer switch. This generator switchgear prompts the generator to start up when utility power fails, and makes the switch within a timeframe of 30 seconds. The MTS panel on this generator changeover switchgear also monitors the stability of utility power before reverting the load.
