Fuji Electric founded in 1923, Japan, is a leading manufacturer of low and medium voltage distribution and motor control equipment such as magnetic contactors, thermal overload ...

Hitachi Energy offers a comprehensive range of high-voltage switchgear and breaker solutions up to 1200 kilovolts AC and 1100 kilovolts DC.

Our Circuit Breakers reliably protect wiring systems with quick response in the event of overcurrent or short circuit.

Fuji Electric founded in 1923, Japan, is a leading manufacturer of low and medium voltage distribution and motor control equipment such as ...

Japanese manufacturers have developed compact and modular circuit breakers that occupy less space without compromising performance. These designs facilitate easier ...

Circuit breakers can be designed to protect against specific types of faults, and they can be rated for different voltage and current capacities, making them suitable for a wide range ...

Japan's advanced industrial base and digital transformation roadmap, focusing on IoT-enabled power infrastructure, favor the deployment of intelligent MV circuit breakers.

FUJI V-circuit breakers (VCB) have been developed through the use of our many years of successful experience and advanced technology. They are compact and light-weight, and are ...
