Are FLEXcon containers collapsible?

Consistent inside dimensions at the top and bottom of the containers allow even multiple layer dunnage to be easily installed and removed. Custom requests and dealer inquiries welcome. Reduce costs with Flexcon's collapsible containers. Our durable, reusable totes collapse flat to save on return shipping and reclaim valued warehouse space.

Why should you choose a thermocontainer?

Made of resistant EPS and robustly constructed, the thermo container offers high stability and is particularly suitable for the storage and transportation of medical products or perishable goods. Thanks to the flexible sizes and individual adaptations, the Thermocontainer can be tailored to specific requirements.

What is an upright folding container?

An upright folding container is a type of container with hinged long sides in the middle and hinged short sides at the base. In its folded and upright state, the upper frame remains rigid, providing the necessary stability. This type of container is commonly used in the retail sector.

What is a Feurer insulated container?
