What is a solar inverter?

The solar inverter. It's the behind-the-scenes wizard that turns your panels' raw sunlight juice (DC power) into something your home can actually use (AC power). Pick a dud, and your solar dreams fizzle. Pick a champ, and you're golden.

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

Is Sol-Ark a good inverter?

With other inverters receiving above-average scores, average just isn't good enough. Sol-Ark: Sol-Ark's residential hybrid inverter is expensive, and its efficiency ratings and warranties aren't as good as other inverters on our list. The Sol-Ark app has also received poor user review scores for its software.

Is Growatt a good microinverter?

Pricing is similar to other microinverters we've seen. Growatt is the best hybrid inverter we found during our search. It's available in a variety of sizes and comes with a fair warranty and efficiency ratings. It's also cheaper than other inverters, which is surprising because hybrid inverters tend to be more expensive.

Cost-effective cable management solutions for solar and photovoltaic power plants.
