What is the difference between a sunroom and a solarium?

Sunrooms have less glass and are easier to clean and maintain. Solariums offer more sunlight and unobstructed views. Sunrooms can include electricity, heating, and cooling, while solariums don't. Sunrooms are normally more expensive, but some options are more affordable. Get quotes from up to 3 pros!

What is the difference between a sunroom and a standard room?

Both let in lots of sunshine, but there are some key differences between the two to consider before choosing. A sunroom is a room with some standard walls fitted with screens or large windows (or sometimes, walls made entirely of glass) and a standard roof that matches the rest of your home.

How much does a sunroom cost?

Depending on the size of your sunroom, standard sunrooms cost between \$20,800 and \$72,000 on average, while solariums cost \$30,000 to \$75,000. Some types of sunrooms are more affordable, but other types are more expensive.

What is the difference between a solarium and a four-season room?

Four-season rooms, in particular, offer more utility because they're insulated, heated, and often cooled. You'll be able to use them year-round regardless of the climate, whereas a solarium will be too cold to enjoy during the winter months. Most types of sunrooms are easier to maintain than a solarium because there's less glass to clean.

Even though a sunroom and a solarium have similar characteristics, these are the primary differences between them. Use of glass: A solarium enclosure is almost entirely glass, except ...
