Will Ukraine build a float glass factory in Kyiv by 2028?

Ukraine is set to build a float glass manufacturing plant in the Kyiv region by 2028. The NovaSklo project aims to construct a large-scale float glass facility in Ukraine. The initiative aims to reduce Ukraine's dependence on imports and attract investment into the country's industrial development, even amid the ongoing war.

What will a glass factory do in Ukraine?

It will also manufacture architectural glass, glasses for solar panels, self-cleaning glasses, glasses for household appliances, ultra-clean glasses for electronics, automotive, tinted, laminated and tempered glasses. It is believed that the plant will almost completely cover Ukraine's need for glass and send some of the products for export.

Why is there no modern glass production in Ukraine?

Lack of modern glass production in Ukraine is explained by the manufacturers' business logic - that plants are supposedly built in locations where there is market, and raw material, and profit. The numbers stated above and facts mentioned below indicate otherwise.

Is glass made in Ukraine?

Currently, glass is not produced in Ukraine, and the country's economy is completely dependent on products that are imported from Europe and Russia. Agromat is carrying out the project together with an American technical partner, where 600-700 people will participate in the construction.

The plant will produce around 24.8 million square meters of glass annually, including clear float, low-iron, laminated architectural, low-emissivity, solar control, ...

In the Rivne region, at the Kostopil glass factory, they started building their own solar power plant with a capacity of 2 MW. This is the ...

Ukraine is set to build its first float glass manufacturing plant in the Kyiv region by 2028. Investors from NovaSklo, alongside representatives from the Ministry of Economy of Ukraine and the ...

The NovaSklo project aims to construct a large-scale float glass facility in Ukraine. The initiative aims to reduce Ukraine's dependence on imports and attract investment into the ...

In the Rivne region, at the Kostopil glass factory, they started building their own solar power plant with a

capacity of 2 MW. This is the first enterprise in Ukraine that uses ...

NovaSklo will manufacture clear float glass with enhanced transparency (mid and low iron extra-clear glass) and coated glass, ...

Our analysts track relevant industries related to the Ukraine Solar Glass Market, allowing our clients with actionable intelligence and reliable forecasts tailored to emerging regional needs.

NovaSklo will manufacture clear float glass with enhanced transparency (mid and low iron extra-clear glass) and coated glass, including solar control (to reduce heat absorption) ...
