The Ashalim Solar Thermal Power Station in the Negev Desert combines photovoltaic and concentrated solar power technologies. It has an installed capacity of ...

The Ashalim Solar Thermal Power Station in the Negev Desert combines photovoltaic and concentrated solar power ...

The Ashalim power station is a concentrated solar power station in the Negev desert near the community settlement of Ashalim, south of the district city of Be'er Sheva in Israel.

The 150 MW solar array is located in the Jezreel Valley of northern Israel and is projected to annually generate 310 GWh of solar energy.
