Who is solar wholesale?

We developed our one-of-a-kind marketplace with funding from the U.S. Department of Energy to make clean home energy solutions affordable and accessible to all. Read reviews for Solar Wholesale, a Solar PV, Energy Storage company since 2016 based in West Jordan, UT.

Is solar wholesale a good company?

Too bad really, Solar wholesale could have had a repeat customer and received additional sales from other customers through referrals had they provided service as promised. If you value your time, money and sanity avoid Solar Wholesale at all cost. First they sent us wrong instructions.

How does solar wholesale work?

Solar wholesale put together a complete package, including instructions, and step by step process for getting the solar system approved by authorities having jurisdiction and installed. If this was all they promised I would give them 4 stars. Unfortunately, after the sale has been made - NOTHING! They do not return calls or provide ongoing service.
