Laos is accelerating its renewable energy transition, and the Vientiane Energy Storage Project stands as a pivotal initiative. With bidding now open, global investors and engineering firms ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's ...

The Australian Energy Regulator (AER) has said that a delay in new renewable energy and energy storage capacity coming online on the National Electricity Market (NEM) in 2023-24 ...

Looking to offer Laos a true alternative to hydroelectric power, I have put forward the idea of a 11,400 MW floating solar-with-storage system (FSS) on the 370 km<sup>2</sup> Nam Ngum reservoir - ...

Our hybrid inverters bridge solar input, energy storage, and local grid or generator power in containerized environments. With advanced MPPT tracking and intelligent switching, they ...

"Energy storage isn't optional anymore - it's how we'll keep the lights on while attracting foreign investment," says a Lao Ministry of Energy official.

Enter Vientiane's groundbreaking solution - a 50MW solar farm paired with 10MWh battery storage that's sort of rewriting the rulebook for tropical energy systems.

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, ...
