-----

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run ...

These modular, scalable, and transportable units are emerging as the backbone of the clean energy revolution, enabling better storage, enhanced efficiency, and greater ...

Since let's get real: solar panels can get all the fame, but the battery system is what keeps the lights on when the sun doesn't. The wrong battery can mean shorter lifetimes, ...

Once installed, solar containers generate free electricity with minimal maintenance costs. Compared to diesel generators, they save significantly on fuel, logistics, and ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Since let's get real: solar panels can get all the fame, but the battery system is what keeps the lights on when the sun doesn't. The ...

Batteries: Equipped with deep-cycle batteries, these containers store excess electricity for use during periods of low sunlight. The battery capacity determines the stored ...
