Discover the benefits and applications of liquid-cooled energy storage cabinets. Explore advanced cooling and efficient power solutions.

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures ...

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle ...

Technical Specifications Complete technical details and specifications for the 836kWh eFLEX BESS Liquid Cooled Battery Storage Cabinet system.

Modular design with high energy density, compatible with 500V~1500V system. Back-to-back or left and right installation saving a footprint above 50%.

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced ...

Modular "All-In-One" integrated single cabinet design for ease of transportation, convenient shipping, and straightforward maintenance. Multi-level fire protection system, graded isolation ...

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and ...
