Who is supplying Bess power in Lithuania?

Lithuanian utility Ignitis Group has announced plans to develop 291 MW/582 MWh of BESS capacity at three of its clean energy sites and said the equipment will be supplied by Germany-based Rolls Royce Solutions GmbH.

Will ignitis install a battery energy storage system in Vilnius?

Vilnius-based utility Ignitis Group will install 291 MW/582 MWh of total battery energy storage system (BESS) capacity at two of its wind farms and at a hydro site, with commercial operation expected in 2027.

Where will Bess be installed?

Announcing a EUR130 million (\$153 million) investment into the three sites on Tuesday, Ignitis said BESS would be installed at wind farms it operates in Kelme and Mazeikiai and next to the Kruonis Pumped Storage Hydroelectric Power Plant, which is also operated by an Ignitis company.

Why are battery energy storage systems important in Lithuania?

"Power generation from renewables is growing in Lithuania, which makes battery energy storage systems an important guarantee of [grid]reliability," said Ignitis Group CEO Darius Maikstenas.

This intelligent control system not only manages the three battery parks, but also the connected wind farms. Close integration is crucial, as this is the only way to keep the ...

The company said yesterday (1 July) that it will begin construction on the battery energy storage system (BESS) facilities, which ...
