What is Moldova's energy consumption?

Transport sector is the second-largest energy consumer (around 0.7 Mtoe) and the main driver in oil consumption growth. Renewables represent 20% of Moldova's energy mix, consisting almost fully of solid biofuels (19% in 2018). 6% of electricity generation comes from renewable sources (hydro, wind, solar PV).

How has Moldova restructured its electricity distribution network?

As part of the reforms, Moldova restructured and partially privatized its electricity distribution network, including Premier Energy, a private company that controls 70 percent of the country's electric distribution grid.

How does Moldova share energy data?

Moldova shares energy data through five annual International Energy Agency (IEA)/Eurostat/UN Economic Commission for Europe (UNECE) joint questionnaires.

What is the demand for electricity in the Republic of Moldova?

The demand for electricity in the Republic of Moldova is expecting to grow at a steady rate of 2% annually, increasing in the both scenarios from about 3800 GWh today to 6900 GWh by 2050. In the reference scenario, natural gas will remain the major source of power generation through to 2050.

In the last five years, the installed capacity of wind and photovoltaic power plants has increased eightfold in Moldova, reaching ...

Moldova is undergoing a deep and significant energy transformation, with 2025 marking a crucial turning point in its shift from a heavy reliance on Russian gas to a future ...

In the last five years, the installed capacity of wind and photovoltaic power plants has increased eightfold in Moldova, reaching 665 MW, and the share of green energy in ...

Moldova aims to fully integrate as much green energy as possible in the coming years, targeting the diversification of its energy sources by attracting foreign investors seeking business ...

Indicators of renewable resource potential per unit of capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of ...
