What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

How does GoodWe meet New Zealand's evolving solar needs?

Below, you'll find a deeper look at how GoodWe blends financial solidity, cutting-edge R&D, and a broad product portfolio to meet New Zealand's evolving solar needs. GoodWe produces up to 35 GW of inverters and 2.1 GWh of batteries each year, guaranteeing supply continuity for installers.

Which Sungrow distributors are authorised in NZ?

Rise Energy is now an authorised Sungrow distributor in NZ, giving installers reliable access to stock, technical support and training across residential, commercial and C&I projects. The Raython M10/15 is a pre-configured all-in-one solar storage solution offering 10-15kW capacity, expandable to 45kW.

What makes GoodWe a great inverter & storage company?

With four research centres and over 1,000 engineers, GoodWe delivers advanced inverter and storage solutions that adapt quickly to new standards and design challenges. GoodWe's EcoSmart Home and Commercial setups combine inverters, battery storage, and management platforms for seamless control and energy savings.
