Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

What gensets does Jenbacher offer?

Integrated Power Solutions. Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...

Only new shipping containers are used for manufacturing generators ranging from 800kva - 2000kva. Noise levels on these sets are between 68 - 76 DbA @ 7 meters. Our generators ...

As demand grows across industrial, residential, and commercial sectors, generator sets -- particularly the containerized variants -- will continue to be a cornerstone in Africa's evolving ...

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, ...

Our Containerised generators can be designed and tailored to suit your specific requirements, such as combining a UPS (Uninterruptible Power Supply) and Diesel generator into one ...

Only new shipping containers are used for manufacturing generators ranging from 800kva - 2000kva. Noise

levels on these sets are between 68 - 76 ...

The container is structurally reinforced with two i-beams in the floor to support the weight of the diesel or gas generator. The diesel engine and alternator as well as the generator control is all ...

The generator sets market is experiencing a shift towards more innovative and sustainable solutions such as containerized generator sets. Ongoing research and development are aimed ...
