-----

NPC entered into the PV industry in 1994, having provided PV module manufacturing equipment for about 30 years for PV manufacturers throughout the world. NPC Incorporated is a machine ...

A complete list of component companies involved in Inverter production.

The PEN8018 is an NPC converter module for building Neutral Point Clamped inverters and similar topologies. Each module features a 3-level IGBT phase-leg.

The NXH600N105H7F5S2HG/P2HG is a power module in F5BP package containing an I-type neutral point clamped three-level inverter. The integrated field stop trench ...

Neutral point clamped (NPC) inverters are widely used topology of multilevel inverters in high-power applications. This kind of inverters are able to be used for up to several megawatts ...

The neutral-point-clamped (NPC) converter and other multilevel converters generate the multilevel voltage waveform through a split DC-link, which provides opportunities for connection of ...

&gt; Products &gt; Semiconductors &gt; IGBT Modules &gt; Advanced NPC 3-Level Inverter Modules

Here's a current list of U.S. solar inverter manufacturing locations.
