-----

This comprehensive review examines grid-connected inverter technologies from 2020 to 2025, revealing critical insights that fundamentally challenge industry assumptions ...

And here's the kicker: Oslo's off-grid solar storage project isn't just surviving - it's thriving in conditions that would make most solar panels file for Arctic hardship pay.

Zurich, May 26, 2025 - Hitachi Energy announces today the signing of contracts with Statnett, the Norwegian power system operator, to deliver eco-efficient grid connection solutions in the ...

To this end, Norwegian transmission system operator Statnett plans to invest twice as much in the country's electric power grid over the ...

To this end, Norwegian transmission system operator Statnett plans to invest twice as much in the country's electric power grid over the next 10 years as it did over the previous ...

Oslo, a global hub for sustainable energy innovation, is witnessing a rapid increase in demand for grid-connected inverters. These devices are essential for integrating solar, wind, and other ...

Hitachi Energy announces today the signing of contracts with Statnett, the Norwegian power system operator, to deliver eco-efficient grid connection solutions in the ...

It's seven and a half megawatt built right outside of Oslo Norway. It's the biggest plant built in Norway's history and of course Solis is a proud vendor to be a part of this project.
