How much does electricity cost in Iceland?

Compared to the EU average electricity price, Iceland's electricity is significantly less expensive. For instance, the average price for EU households with a consumption between 2,500 and 5,000 kilowatt-hours annually was 28.9 euro cents in the first half of 2024, around 10 euro cents more than in Iceland.

What factors drive electricity prices in Iceland?

In this chapter, we outline the electricity supply, demand, market design, and present the main factors driving electricity prices in Iceland. Over decades, there has been a significant growth of the net electricity consumption in Iceland, reaching the level of 19.28 TWh in 2018.

Does Iceland have a competitive electricity price?

Electricity prices for energy intensive industries in Iceland are relatively competitive at a global level. This is mainly due to the abundant and natural energy sources in Iceland, such as hydro power and geothermal energy. Only a few countries or regions in North America or Europe can benefit from similar energy sources.

How much does a power adapter cost in Iceland?

Here's our recommended power adapters for people from the United States or Canada who are visiting Iceland: Ceptics 3-pack type E/F adapter. Be sure to select "E/F" as the type. That 3 pack costs about \$10; that's cheaper than a single adapter will cost you in Iceland! You can also buy 2 prong, ungrounded adapters.
