Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The Grid Buster is designed with 2 separate sub-systems, each connected to a Solar Array, Battery Storage, and Inverter. These redundancies ensure continuous operation through any ...

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

energy storage technologies. In recent years, new storage battery technology has been developed for large-scale power uses, such as storing power for general building use. The ...

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

Join us as we take a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container! Hi there, ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.
