With Brazil negotiating new Itaipu energy rates and Uruguay expanding wind storage, Paraguay needs to move fast. Storage isn't just about keeping lights on anymore - it's about claiming ...

Paraguay's energy ministry didn't just pull this idea from thin air. Three compelling factors drove their decision: Think of it as a vertical energy seesaw. During off-peak hours, excess solar and ...

A joint venture (JV) formed by investors PASH Global and ERIH Holdings reportedly plans to develop utility-scale solar power ...

A joint venture (JV) formed by investors PASH Global and ERIH Holdings reportedly plans to develop utility-scale solar power facilities and battery energy storage system projects in ...

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW. [pdf]

With 98% of its electricity already hydro-powered, Paraguay now leverages cutting-edge battery storage systems to export clean energy across borders. Let's explore how this landlocked ...

This paper analyzes technically and economically an autonomous sodium hypochlorite plant using a renewable energy source and a hydrogen storage system in the Western Region of Paragua...

Image: Harmony Energy. Alex Thornton, operations director at Harmony Energy, gives us a deep dive into Pillswood, the biggest battery storage project in Europe, including the bold decision to ...
