---

The battery was installed at an SDG& E substation, where it has undergone testing and fine-tuning for reliability and performance, before starting participation in the California ISO wholesale ...

Sumitomo Electric is pleased to introduce its advanced vanadium redox flow battery (VRFB) at Energy Storage North America (ESNA), held at the San Diego Convention ...

Sumitomo Electric is pleased to introduce its advanced ...

Japanese manufacturer Sumitomo Electric has released a new vanadium redox flow battery (VRFB) suitable for a variety of long-duration configurations. Unveiled at Energy ...

Sumitomo Electric has announced the launch of its advanced vanadium redox flow battery (VRFB) at the Energy Storage North America (ESNA) event, taking place at the San ...

Now, the battery is making news at a San Diego Gas & Electric (SDG& E) substation as the first of its kind to use the emerging flow technology with ...

Two years after becoming the first battery of its kind to be connected to the California grid to help support reliability and maximize the use of clean energy, the vanadium ...

Now, the battery is making news at a San Diego Gas & Electric (SDG& E) substation as the first of its kind to use the emerging flow technology with microgrids to power communities and critical ...
