---

You know, Serbia's been wrestling with energy dependency for decades. With 65% of electricity still generated from coal and aging infrastructure causing 7% transmission losses in 2024 ...

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems.

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

With our expertise in advanced solar technology, including bifacial double-glass modules and innovative solutions for distributed ...

Outdoor power supply systems are transforming energy accessibility across industries in Serbia, particularly in Novi Sad. This article explores the growing demand for durable outdoor power ...

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy ...

In this article, we will explore the development of solar projects in Serbia, highlighting the benefits they offer, the challenges faced, and the initiatives taken to foster their implementation. ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...
