Visit Seychelles is the new official Seychelles Islands mobile application where potential visitors can explore what the islands have to offer. Visitors can plan their trip, view travel essentials ...

By mid-2025, Seychelles is poised to take a significant leap in renewable energy with the launch of its first floating solar farm--the largest in Africa.

In a landmark move for renewable energy in the Indian Ocean, Qair International has officially commenced construction on the first floating solar power plant in the Seychelles.

The Seychelles is an archipelago of 115 islands in the Indian Ocean, off East Africa. It's home to numerous beaches, coral reefs and nature reserves, as well as rare animals such as giant ...
