Why are mobile services crucial in Sierra Leone?

In Sierra Leone, mobile services have been the main driver in the telecom sector due to the poor state of the fixed-line infrastructure. This is evident in the launch of a 5G pilot service by Orange Sierra Leone in September 2023.

What telecommunications are available in Sierra Leone?

Telecommunications in Sierra Leone include radio, television, fixed and mobile telephones, and the Internet. Radio is the most-popular and most-trusted media source in Sierra Leone, with 72% of people in the country listening to the radio daily.

Are there free TV stations in Sierra Leone?

There are two national, free terrestrial television stations in Sierra Leone, one run by the government SLBC and the other a private station, AIT (Africa Independent Television) which is linked with the Nigerian station of the same name.

Is there a radio station in Sierra Leone?

Radio is the most widely accessed broadcast platform in Sierra Leone. Eight out of 10 (81%) Sierra Leoneans have access to radio, and 47% listen to it daily. However, radio listenership is fractured, with no single station able to reach a national audience.
