-----

A built-in solar panel powers the system, while a long-life battery ensures reliability for at least five years. Whether your site is undergoing changes or expanding rapidly, ...

Ventev's Wi-Fi Solar System is a complete, fully-integrated power enclosure system that is pre-wired and pre-assembled for on-site installation of outdoor access points requiring PoE/PoE+ ...

Discover how solar-powered access control systems and energy-efficient ANPR cameras like Einar provide reliable, off-grid vehicle management with minimal energy use.

Simplify perimeter security, manage contractor access, and ensure compliance in energized environments. Reduce costs by eliminating manned gate guards while maintaining safety and ...

Our solar-powered gate barriers not only provide controlled access but also operate seamlessly with the use of renewable energy. By harnessing the power of the sun, ...

Ventev's Wi-Fi Solar System is a complete, fully-integrated ...

Whether you're securing a remote construction site, a gated neighborhood, or a dispensary with limited infrastructure, solar-powered and battery-based solutions can deliver reliable ...

Integrating solar energy into access control systems offers a sustainable and reliable power solution. The initial stages involve assessing energy requirements meticulously ...
